

Your customers are asking AI. Is your brand the answer?

WHAT ANSWERRANK DOES

AnswerRank is an SEO and AEO agency for solo founders who built their growth on Google. We get you ranking on Google and cited in AI-generated answers on ChatGPT, Perplexity, and Google AI Mode, using one strategy, not two. If your traffic is dropping, AI search is almost certainly why. We fix that.

// WHAT CHANGED

Search just changed. Most solo founders haven't noticed yet.

WHY ORGANIC TRAFFIC IS DROPPING IN 2026

A structural shift in how people search, not a Google penalty, is why your organic traffic is falling in 2026.

Three years ago, getting found online meant ranking on Google. That still matters, but it's no longer the whole game.

Today, when your potential customer has a question, there's a good chance they're not typing it into Google at all. They're asking ChatGPT. They're searching Perplexity. They're letting Google's own AI Mode answer it for them, before a single blue link shows up. And the answer it gives names specific businesses, recommends specific brands, and builds trust before anyone clicks anything.

If your business isn't in that answer, your potential customer doesn't know you exist, even if you're sitting at position one on Google.

This isn't a trend you can wait out. It's a structural shift in how search works, and

most solo founders haven't adjusted for it yet.

68%

of searches now end without a click to any website (BrightEdge)

93%

of Google AI Mode searches end without a click (BrightEdge)

15.9%

conversion rate from AI search clicks, vs 1.76% from organic search (Ahrefs)

// WHAT WE DO

What is AnswerRank?

WHAT IS AN AEO AGENCY

AnswerRank is an SEO and AEO agency built specifically for solo founders. We get you ranking on Google and cited in AI-generated answers using one integrated strategy.

Most agencies still optimise for Google only. We built a system that does both, because in 2026 you need both.

You don't need two agencies. You don't need to learn a new discipline. You need one clear strategy that works across every surface your customers use to find answers, and that's exactly what we build.

SEE WHERE YOU STAND

Free AEO Audit

\$0

We review your top 3 pages against the criteria AI systems use to decide who gets cited. You get a clear picture of where you stand and 3 immediate fixes, delivered by email in 48 hours. No cost. No commitment. No pitch.

// GETTING CITED IN AI ISN'T COMPLICATED. IT'S JUST NEW.

How it works

Step 01

We audit what you have

We run your site through our AEO framework, checking every signal AI systems use to decide who gets cited.

Step 02

We build your visibility plan

A keyword and fan-out map covering Google and AI search, a content calendar, and a schema plan, built as one strategy.

Step 03

We execute, or you do

We publish for you, or hand you a complete brief. Either way, every piece is built to rank and earn citations at once.

Step 04

We track and report

Google rankings, AI citation rates, AI referral traffic. No vanity metrics, just the numbers that matter.

See the Full Process

// THE NUMBERS

Less traffic. Better clients. Here's why that's not a contradiction.

AI search sends fewer visitors than Google. But the visitors it sends convert at rates traditional SEO has never seen.

24x

higher conversion rate from AI search vs organic search (Ahrefs, 2025)

0.5%

of visitors from AI search drove 12.1% of signups in Ahrefs' study

35%

higher click-through rate for brands cited in AI Overviews (BrightEdge)

When AI recommends your brand, the visitor arrives already trusting you. They're not browsing, they're deciding. That's why the conversion rate is different, and

why being cited matters more than ranking position four.

// FAQ

Questions solo founders ask us first

Do I need AEO if I already invest in SEO?

—

Yes, but it's not as complicated as it sounds. AEO builds directly on your existing SEO work. The same content that ranks on Google can be optimised to get cited by AI. We show you exactly what to add or change. You don't start over, you build on what you already have.

How quickly will I see results?

+

How is AnswerRank different from a regular SEO agency?

+

What does the free audit actually cover?

+

I'm a solo founder with limited time. Is this realistic for me?

+

Your competitors are already showing up in AI answers.

Find out in 48 hours whether you are too, and exactly what it would take to start getting cited.
